(806) 468-7641

❖ **Project:**

Frontier Fuels Dalhart, TX

❖ **Building Area:**

6000 Sq. Ft

Description:

Scope of work consisted of a wood frame structure with some structural steel supports. Brick, split face CMU, sculptured stone veneer, and EIFS accounted for the exterior finishes. This project consisted of many detailed interior finishes with radius fur downs, stained and stamped concrete floors and floor to ceiling ceramic tile in the restrooms. The restaurant side contains a fully operational kitchen with a drive through window. Every aspect of this project contained custom touches that we were able to complete on time and on budget
